Description and purpose of change:		
To increase the production capability, Wurth Electronics Midcom will change the header terminal material for improved solderability.		
There will be no change in form, fit, function, quality or reliability of the product.		
Detail of Change:		
The header terminal material will change from: Copper Plated Steel (CP) Wire		
To: Phosphor Bronze (PB) C5191		

## Reliability / Qualification Summary:

Process / Product approval is according to internal requirements released by the Total Quality Department and the Product Management Department.
