Bourns Adds Inductor Core Alternate Supplier for Select Varnished Chokes

Model 4600 Series

Riverside, California – October 22, 2019 – Bourns is qualifying an alternate inductor core supplier for the Model [4600 Series Varnished Chokes](#) to improve flexibility of material management and sourcing lead time. The material appearance of the current and additional supplier is different where the latter has a mold cavity mark. A list of affected part numbers is shown below.

Affected Part Numbers			
4602-RC	4606-RC	4609-RC	4611-RC
4604-RC	4608-RC	4610-RC	4612-RC

The form of the inductor core will consist of two versions depending on the material supplier. The fit, function, quality and reliability remain unchanged.

The implementation date of the alternate core supplier is as follows:

Date manufacturing with the alternate core will begin: **January 19, 2020**

First date code using the new changes: **2004**

If you have any questions or need additional information, please feel free to contact [Customer Service/Inside Sales](#).

Users should verify that the described changes will not impact the performance of the product in their specific applications.
