TE Connectivity

Product Change Notification: P-21-020820

PCN Date: 28-APR-21

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:
Packaging of SR4 and SR6 relays

Description of Changes
Dear Customer, as part of our continuous improvement process we decided to improve our packaging for SR4 and SR6 relays to reduce the impact of the environmental conditions during the shipment, especially the harsh conditions of humid and salty air during oversea transport. Therefore instead of placing the carton-tubes directly into the shipping box, we added a transparent plastic bag in the shipping box in which the carton-tubes are inserted, together with a small desiccant bag. No changes were made to the shipping box, the carton tubes or their orientation in the box, only the plastic bag and desiccant bag were added. In order to benefit from the improved packaging as soon as possible, all lots produced since 5th of April 2021 (calendar week 14 or date code 2114) are featuring this improved packaging design.
