PDN 149703: Product Discontinuance Notice - Pb-containing BGA devices built in Amkor Philippines - MT90871AV and ZL50050GAC

Description:

Microsemi is announcing the discontinuance of the Pb-containing products built in Amkor Philippines.

Reason for Discontinuance:

The decision to discontinue these products is being driven by rapidly decreasing Pb-containing BGA product orders, and ultimately by the expiration of the RoHS Pb exemptions which end in July of 2016.

Customer Impact:

These devices are being removed from Microsemi’s product offering and will no longer be available for order after March 31, 2015.

The silicon die of the replacement parts are identical to those in the Pb-containing packaged parts, and there is no difference in function.

Orders for these products will be non-cancelable and non-returnable.

Replacement Parts:

Refer to the following table for the replacement parts:

Pb-containing Affected Part	Pb-free Replacement
MT90871AV	MT90871AV2
ZL50050GAC	ZL50050GAG2

Discontinuance Notice

Last Order Date: March 31, 2015

A last time order is in effect until March 31, 2015.

Please note that all orders must be booked as non-cancelable non-returnable (NCNR) by no later than March 31, 2015. No new orders will be accepted after this date. Although Microsemi will attempt to accommodate all requirements, it is highly recommended that orders be placed as far as possible in advance of the order deadline.

Last Shipment Date: March 31, 2016

Deliveries can be scheduled up to March 31, 2016.

Please note that Microsemi will continue to ship last-time-buy orders as requested only through March 31, 2016. Product orders must be scheduled to ship no later than this date.

Products Affected by this Discontinuance:

MT90871AV and ZL50050GAC
